Profile:

I studied at KMUTT in computer engineering fields. I am a fast learner and enthusiastic looking to develop my skill by working and collaborating with other people.

Education

- International Pioneers School
 - Saint Xavier's Senior Secondary School, India
 - King Mongkut's University of Technology Thonburi (KMUTT)
B.Eng in Computer Engineering
GPA: 3.45
-

Professional Experience:

- **Internship at Pomelo**
Role: Software Engineering Intern
Achievements: Won first place for Pomelo Capstone Project
 - **Internship at Plus Property**
Role: Software Engineering Intern
Project: Developed an object detection AI for license plate recognition
 - **Playwork**
Role: Frontend Developer
Project: Worked on Mcneto CMS Project - <https://ccm-seller.mcneto.com>
Tech Stack: ReactJS, Redux, Sass, Bootstrap, Styled Component
Highlights:
 - Built reusable and customizable UI components that enable users to design their own salepage templates.
 - Modularized components for scalability and maintainability.
-

Skills:

- **Languages:**
 - English (IELTS 7.0 - C1, TOEIC 935)
 - Thai (Native)
- **Programming Languages:**
 - Javascript, Typescript, CSS, HTML, Java, Python, C, R, SQL, Verilog, LaTeX
- **Framework:**
 - NodeJS, ExpressJS, Flask (Python), NodeJS, Tailwind CSS, Style Component, Redux, ReactJS, Puppeteer
- **Database:**
 - MySQL, MongoDB
- **AI & Machine Learning:**
 - TensorFlow, PyTorch, OpenCV, Keeras, YOLO

- **Version Control:**
 - Github, Bitbucket
 - **Tools:**
 - Postman, Jira, Miro, Trello, Command Line, Figma, Roboflow
-

Projects:

- **FPGA Board - Alarm Clock:** Created an alarm clock using FPGA technology that displays current and alarm times.
- **C Data Structure - Movie Social App:** Developed a social app for movie reviews using C language data structures.
- **HR Management System Website:** Worked as a full-stack developer using MySQL as the database.
- **Stock Simulation Website:** Worked as a full-stack developer using MongoDB as the database.
- **Java - Fish Aquarium:** Created a networked fish aquarium simulation using Java sockets, passing an object to other clients and allowing it to bounce within the clients.
- **Dental AI Chatbot for Oral Question Answering and Post-Surgery Care:** Developed a QA Machine Learning Model for Question Answering Feature. Worked as a full-stack developer using MongoDB as the database.
- **Mcneto Salepage CMS:** Worked as a front-end developer using ReactJS, Redux, Sass, and Bootstrap.
